

JEREMY GUIDO

ADDRESS: #2-1420 Elford St. Victoria, BC
PHONE: +1 250 575-7251
EMAIL: jeremy.a.guido@gmail.com

WORK EXPERIENCE

Current JAN 2016	CAMOSUN COLLEGE <i>Applied Research Technologist II</i> Technical lead for control system and automation design projects. Responsible for implementing process improvements and providing leadership for mechanical technologists. Created drawings for in house and external fabrication. Participated in management meetings and conducted client meetings. Drafted grant applications for funding from NSERC
DEC 2020 JULY 2019	POLAR ENGINEERING <i>Energy Analyst</i> Created energy models of existing building for the purpose of finding energy saving opportunities. Designed energy recovery systems to offset operational costs and lower carbon footprints in existing buildings. Designed low carbon footprint industrial refrigeration systems for new buildings.
JULY 2018 JUNE 2016	ACCENT REFRIGERATION <i>Design Technologist</i> Designed and coordinated the construction of energy efficient industrial refrigeration packages. Responsible for implementing new P&ID drawing techniques for refrigeration and electrical drawings based on existing industry standards. Performed site visits on refrigeration plants to update existing plant infrastructure so that the facilities met new regulations.

EDUCATION

DEC 2021 SEPT 2018	University of Victoria , Victoria BC <i>Bachelor of Engineering</i>
MAY 2017 SEPT 2015	Camosun College , Victoria BC <i>Mechanical Engineering Technologist</i>
JULY 2012 JAN 2008	Okanagan College , Kelowna BC <i>Red Seal Chef</i>
AUG 2007 JULY 2005	Center for Arts and Technology , Kelowna BC <i>Diploma in Video Game Art and Design</i>

PERSONAL PROJECTS

CURRENT STATUS DESIGN	Liquid-Fuel Rocket Engine Test Stand <i>Goal:</i> To design a liquid-fueled rocket engine and testing platform with the intent of verifying the designs based on existing rocketry building standards
CURRENT STATUS PROTOTYPING	Custom GoTo Telescope Mount <i>Goal:</i> Design and build an electronic control system for an existing telescope mount that will be capable of tracking fast moving objects in the sky for astrophotography.

COMMUNITY OUTREACH

ENGINEERING STUDENT SOCIETY	Acted as the Vice President of Corporate Relations to help facilitate relationships between the student body and the local engineering industry. Helped organized events such as industry nights, engineering competitions, and fundraisers.
F.I.R.S.T	Helped judge high-school level robotics competitions as an industry representative hosted by F or I nspiration and R ecognition of S cience and T echnology.

RELEVANT SKILLS

CAD	AutoCAD, Solidworks, Inventor	Office Productivity	MS Office, L ^A T _E X, Slack, Teams
Programming	C, C++, Python, MATLAB	Warehouse	Farm Tractors, Forklifts
Image Editing	Photoshop, Illustrator	Manufacturing	Waterjet cutters, CNC Machines, Laser cutters
